### WHAT ARE FAMILY HUBS?

Family Hubs are places where families with children and young people 0-19 years, or up to 25 with SEND, can share the joys and challenges of parenthood.

Our Family Hubs offer a wide range of activities and integrated support services to help you with every aspect of parenting for children of all ages. At the core of Family Hubs is the Start for Life offer for children from birth to 2-year-old, to ensure every child in Bolton has the best possible start in life.

Find us online

Bolton Family Hubs https://bit.ly/4ciRzZB A range of professionals are available to support parents-to-be and families around an array of topics from supporting your child's development and learning, to finding advice and guidance for topics like financial support, housing, employment and much more!

We also signpost to other agencies when needed. Speak to the team by telephone or during one of the sessions advertised in this guide.

#### Looking after your baby's teeth

You can start brushing your baby's teeth as soon as they start to come through. Use a baby toothbrush with a tiny smear of fluoride toothpaste.

Don't worry if you don't manage to brush much at first.

The important thing is to get your baby used to brushing their teeth as part of their daily routine. You can help by setting a good example and letting them see you brushing your own teeth.
