

How much longer?

5

4

3

2

1

finished

Use this Countdown Card to help a child see tasks coming to an end.

Laminate page. Cut out the "How much longer strip?". Add a strip of soft Velcro vertically on the front and back.

Put rough Velcro dots on the back of each number and the finished picture.

Cut and place pictures on front of card (5,4,...1, finished - top to bottom).

While your child is completing a task, gradually move each number to the back counting down from the 5 to 1.
